Mail Stop Amendment
Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Sir:

Applicants filed a Request for Continued Examination and an Amendment on June 18, 2009 in connection with the above-identified application. One of the issues addressed in the Amendment were the provisional obviousness-type double patenting rejections made by the Examiner. Following a telephonic discussion held with the Examiner on July 1, 2009 in connection with the application and child application Serial No. 11/135,660, applicants wished to clarify their statements regarding the provisional, obviousness-type double patenting rejections. In the event that the claims in this application are deemed allowable, applicants will file the necessary Terminal Disclaimers to obviate the provisional, obviousness-type double patenting rejections, if necessary.

It is believed that the previously filed amendment is fully responsive to the Office Action, and the application is condition for allowance. However, if the Examiner has any further questions, she is invited to telephone the undersigned.

Respectfully submitted,
JACOBSON HOLMAN PLLC
